The Anchorage Park Foundation is a nonprofit whose mission is to build Healthy Parks, Healthy People by mobilizing public support and financial resources for Anchorage parks, trails, and recreation opportunities.

APF raises funds, builds community support through education and promotion, and works closely with city staff for project scoping, design, volunteer coordination, and construction. APF make improvements to parks and trails primarily through these five programs: Youth Employment in Parks (YEP), Neighborhood Parks, Challenge Grants, Parks For All, Trails Initiative

APF meets donor and volunteer needs by leveraging funds through this unique public-private partnership. APF’s ability to engage the community in meaningful ways, inspire nontraditional partnerships, stretch a dollar, attract grants and introduce new donors to projects, produces park and trail results.

APF works closely with municipal staff to implement projects. Our joint successes have led to an increase in community ownership of our system of parks and trails.
