

Moose Loop Directions

Please also refer to an [interactive google map](#) of the Moose Loop.

The below description starts counterclockwise from mile 0.0 at the start of the Tony Knowles Coastal Trail. The Coastal Trail Starts on 2nd Avenue and H Street – west of the intersection of Christensen Drive

Follow the Tony Knowles Coastal trail south for 10.5 miles to Kincaid Park Chalet and Raspberry Rd.

- Head east on separated path on southside of Raspberry Road from Kincaid Park Chalet to Sand Lake Road
- Head south on Sand Lake Road to Dimond Boulevard
- Take Dimond Boulevard east to Jewel Lake Terrace (just past Jewel Lake)
- Take Jewel Lake Terrace north one block to 88th Avenue
- Head east on 88th Avenue. You will cross Jewel Lake Road and pass Dimond High School. Keep going until 88th intersects with the Campbell Creek Trail – just as it curves. Don't turn left onto Northwood Street – stay straight.

Campbell Creek Trail is 7.5 miles

Once on the Campbell Creek Trail, you will come to a trail intersection. Stay left and follow the Creek. Campbell Creek trail goes off into neighborhoods at many different locations, but a rule of thumb is to try to keep on the main multi-use trail. Many portions of the trail have yellow directional lines. That's where you want to be. You will travel under three major roads - Minnesota, Arctic, and C Street. Just past C Street, keep moving forward until you reach Taku Lake. You will pass through a grassy field with exits to the skate park. Keep heading to the lake – you will curve around the lake with the lake on the right. Don't take the bridge with the fish on it – that will take you back to C Street. After Taku Lake Park, you will go under Dowling Road and the Old Seward Highway and new Seward Hwy and then you come to a street called 47th Court, which dead ends at Lake Otis Parkway.

Campbell Park and the continuation of the Campbell Creek Trail is directly across the street, but to be safe we ask that you take a right and go down Lake Otis to the light at 53rd/Waldron. There is also an underpass there that you could take. Then you come back up to Campbell Park and jump on the multi-use trail again. You keep along the trail and go under Elmore Road and continue on the trail to Tudor Road. At Tudor you will see the bike and pedestrian overpass of Tudor Road heading toward the Alaska Native Hospital. The lake in front of the Alaska Native Hospital will be on your right and the hospital on your left. You will come to an intersection with the Chester Creek Trail and University Lake - make a sharp right just past the ANTHC Child Development Center.

Chester Creek Trail - you will be on the Chester Creek Trail briefly before heading toward the Ship Creek Trail

As you travel along the Chester Creek Trail you will pass University Lake and APU. If you get to Goose Lake you have gone too far. Turn back. Near APU, there is a section of the trail that opens up where you

can see East High. You will cross the over Northern Lights Boulevard on a bike and pedestrian overpass near East High.

Once you cross the bridge over Northern Lights at East High it is a little tricky. Stay right at an intersection when you see some apartments ahead – and then just keep heading north. You are now on a path adjacent to Russian Jack Springs Park.

Potential Detour: If you want to take the lighted loop through Russian Jack Springs Park, you will enjoy it very much. But it's also a bit tricky with the wayfinding through the park. S

The official Moose Loop takes you along Pine Street instead of going through the park.

Stay on the sidewalk on Pine Street and continue North – crossing DeBarr Street

- There is a designated Bike Boulevard on Pine Street. Stay on it as you pass by the Polar Bear Park in Russian Jack Springs Park.
- Keep heading north on Pine Street (Pine Street turns into McCarry Street) to Mountain View Drive
- Head West on Mountain View Drive to Bunn Street
- Look for the Mural at the intersection of Mountain View Drive and Bunn Street. This is Louie G. Mizelle Park. Cut through Louis G Mizelle Park, which turns in to Peterkin Blvd.
- Follow Peterkin Bike Boulevard to Meyer Street
- Take Meyer Street south ½ block to Richmond (Tyson Elementary School sign)
- Take Richmond Ave down the hill as it merges into the Ship Creek Trail
- There is a big sign announcing the Ship Creek Trail
- Ship Creek Trail travels west along the creek for 2.5 miles to the intersection with North C Street
- Take N. C Street to W. 1st Ave in front of the Railroad
- Take W. 1st Avenue up the hill as it turns into Christensen Drive
- Head west on W. 2nd Ave.
- W. 2nd Avenue merges on to Tony Knowles Coastal Trail right where you started

Congratulations! You completed the 32-mile Moose Loop!
